	51h	4h30	6h	4h30	6h	6h	0H	6h	4h30	6h	6h	1h30
Time	Monday Sept. 12	Tuesday Sept. 13	Wednesday Sept. 14	Thursday Sept. 15	Friday Sept. 16	Saturday Sept. 17	Sunday Sept. 18	Monday Sept. 19	Tuesday Sept. 20	Wednesday Sept. 21	Thursday Sept. 22	Friday Sept. 23
7h45 - 8h45		Breakfast										
9h00-9h10		Introduction	C. Moutou - characterization of exoplanets by ground based observations	O. Creevey - characterization of host stars	B. Charnay - interpretation & inversion of data	I. Kleiner - Laboratory spectroscopy and analysis		E. Hebrard- introduction and modeling of molecular chemistry in atmospheres	J. Leconte Basic dynamics and terrestrial planets	F. Forget - Habitability	F. Leblanc - Exhaust and evaporation	
9h10-9h30		Pascale Danto - CNES										
9h30-10h30		Jean-Philippe Beaulieu - Atmospheres of exoplanets in space missions										Assessment of the practical work and the school - prospects
10h30-10h50												
10h50-12h20		A. Morbidelli - the formation of planetary systems	P.-O. Lagage - JWST data reduction	A. Strugarek - magnetic interaction and wind between stars and planets	A. Chiavassa - The impact of stellar activity on the observations	M. Rey - ab initio calculations + database		Olivia Venot - chemistry (thermo/photochemistry) - modelisation	V. Parmentier - hot giant planets & clouds	H. Massol - Atmosphere formation	P. Drossart - History of errors in the solar system	
12h30		Lunch										
14h-15h		Free	Training session I 1st group : Data Reduction NIRSPEC (lead : B. Edwards) 2nd group : Data Reduction MIRI/LRS (lead : A. Dyrek)	Free	Training session II 1st group : Data Reduction MIRI/LRS (lead : A. Dyrek) 2nd group : Data Reduction NIRSPEC (lead : B. Edwards)	Training session III preparation of JWST observations, misc. (lead: JP Beaulieu and Th. Fouchet)		Training session IV 1st group : Data reduction for MIRI/MRS (lead : M. Mâlin) 2nd group: Interpretation of JWST reduced data (leads : Y. Jaziri & W. Pluriel)	Free	Training session V 1st group: Interpretation of JWST reduced data (leads: Y. Jaziri & W. Pluriel) 2nd group: Data reduction for MIRI/MRS (lead : M. Mâlin)	TRAINING session VI wrap-up & preparation of conclusions	Departure
15h-17h												
17h-17h30	Arrival	P.O. Lagage - Space assets		E. Bolmont - star-planet tidal effects					T. Guillot - Link between deep and superficial planets			
17:30-18h30								O. Venot & E. Hébrard - Experimental chemistry for planets				
18h30-19h00												
19h00-19h30												
19h30		Dinner										
21h	Welcome speach			presentations by participants (tbd)						presentations by participants (tbd)
